Plan for kurset

- Teori
- Tegn i 5 kategorier:
 - Nyttige småord
 - Verb
 - Mennesker
 - Tall
 - Skole
- Idébank

Hva er tegn-til-tale?

- ▶ En metode der man setter tegn til nøkkelord i en setning
- ▶ Låner tegn fra norsk tegnspråk
- ▶ TTT, NMT, TST = oppfattes som parallelle begreper (statped.no)
- ▶ Norsk tegnspråk = eget, fullverdig språk

Hva er tegn-til-tale?

- **Hensikt:** Å få i gang samspill og kommunikasjon
- **Målet** med TTT er å fremme barnets språkforståelse og egen kommunikasjon
- TTT er et **supplement** til tale
- Fordeler med bruk av TTT: **Se + høre + forstå** = enklere hverdagskommunikasjon

Hva er tegn-til-tale?

- ▶ Tale skjer **raskt** → Ulempe for de som lytter langsomt
 - Tegn er hastighetsdempende.
- ▶ **Når** skal vi bruke tegn?
 - I alle situasjoner der vi snakker (Irene Johansson)
- ▶ **Hvordan** skal man bruke tegn?
 - Tenk gjennom hva du pleier å si og hvordan du sier det. Finn tegn som passer og benytt parallelt med tale.
- ▶ For **hvem** passer det med tegn?
 - Symbolforståelse
 - Motorisk funksjon

Idébank

«Tips og triks» for å lære og vedlikeholde tegn

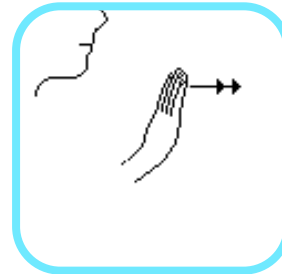

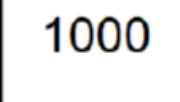

Synge sanger

Bingo

- ▶ Lag bingoplater med bilder eller symboler for begrepene dere øver på
- ▶ En er «bingovert» og viser tegn
- ▶ Resten krysser ut på brettene sine etter hvert som de avleser

baby 	skal 	er 	besøke 
ja 	jobbe 	kan 	vente 
gi 	1000 	ferdig 	mer 

Ordsparebøsse

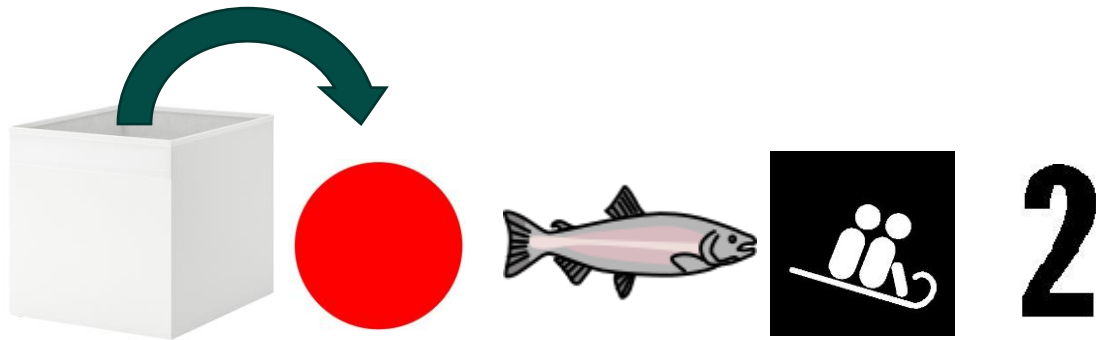

- ♦ 1. Trekk kort
- ♦ 2. Vis tegn
- ♦ 3. Putt i boksen

- ♦ Du trenger:

- Bildekort med ord dere skal øve på
- Tom isboks eller lignende med utskåret felt i lokket

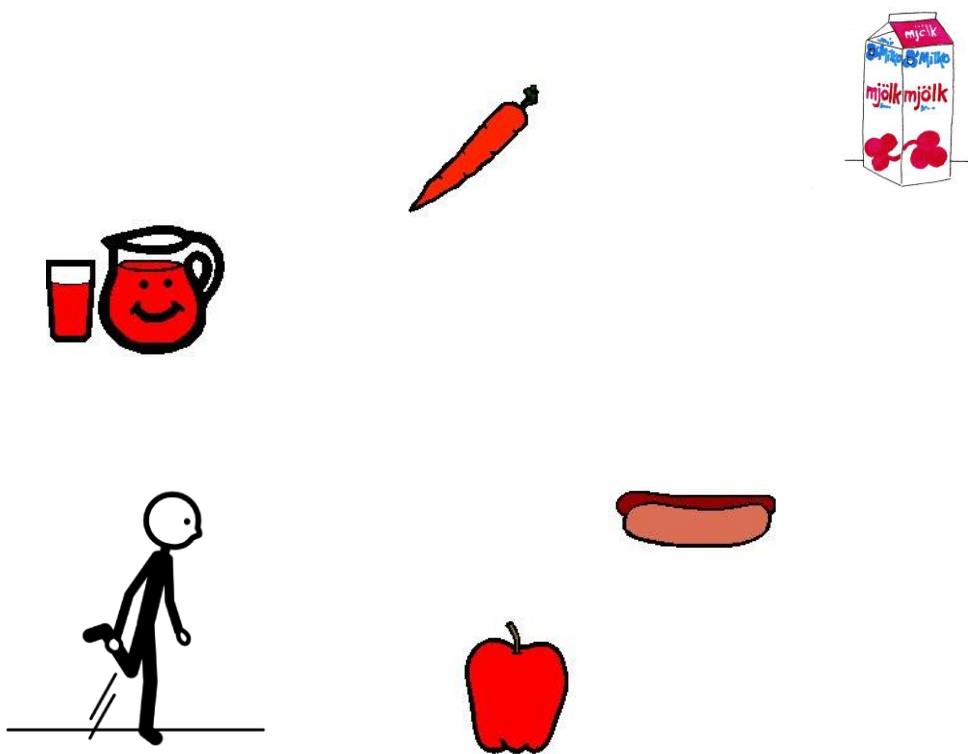

Huskerunde

rød – fisk – ake - to

- ▶ Kort med bilder og symboler av tegn dere øver på i en boks eller lignende
- ▶ Førstemann trekker og viser tegn for ordet på sitt kort (f.eks. rød)
- ▶ Når nestemann trekker viser alle tegnet fra forrige kort (rød) og deretter tegnet fra det nye kortet (rød og fisk)
- ▶ Tredjemann: «rød, fisk og ake» osv.
- ▶ Hvor mange klarer dere?
- ▶ Gir mange repetisjoner

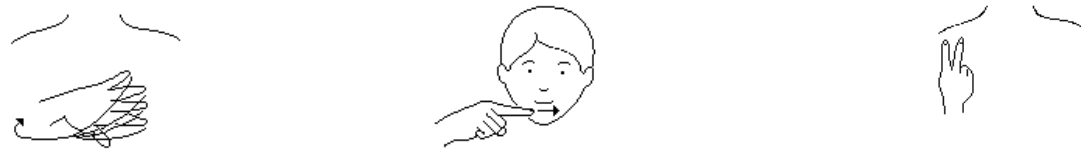

Finn riktig tegn

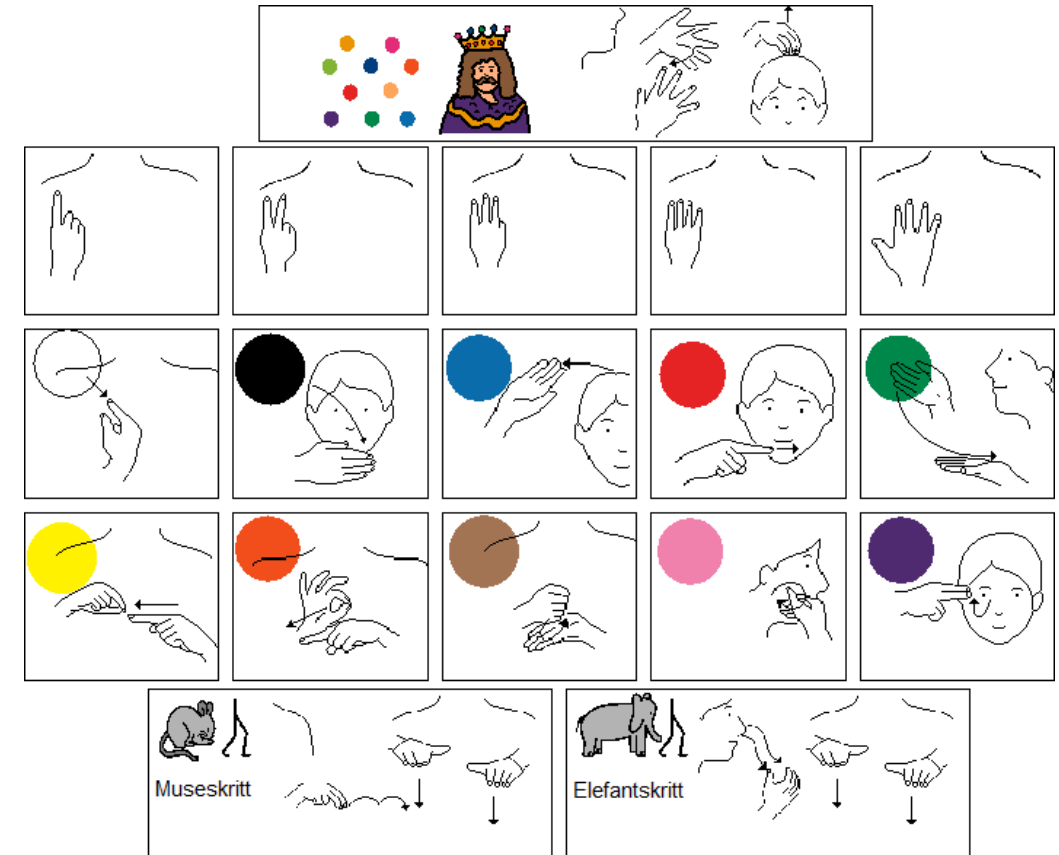

- ▶ Bilder for ulike ord på gulvet
- ▶ Den voksne viser tegn (og tale) for et ord som barnet skal hoppe til
- ▶ Etter hvert kan dere bytte roller slik at barnet sier med tegn (og tale) hvilket ord den voksne skal hoppe til
- ▶ Ekstra utfordring: bare vise tegn

Fargekongen

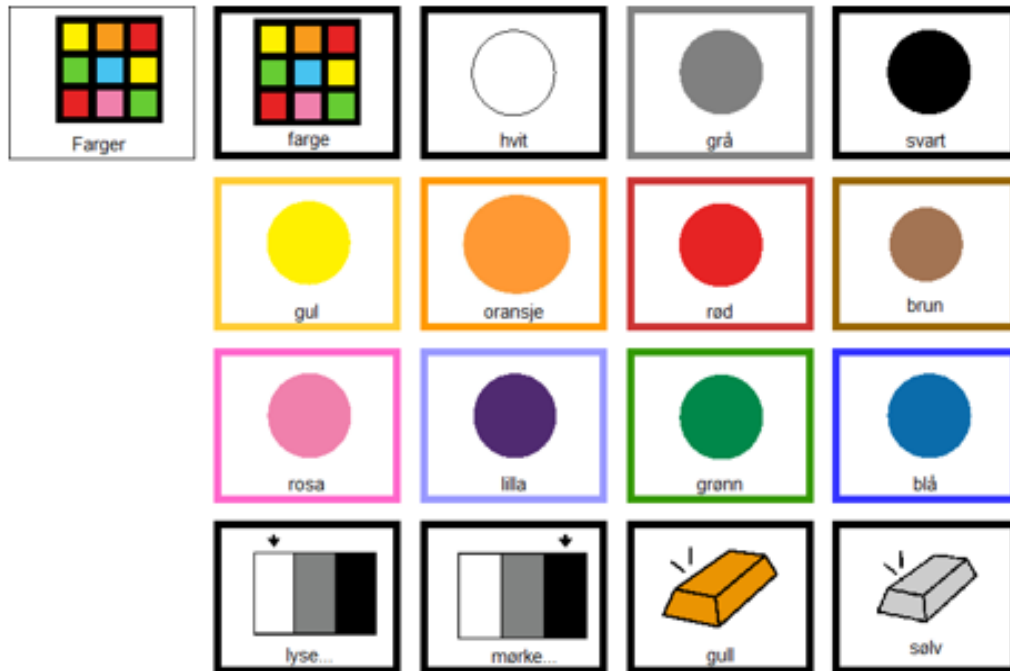

- Alle er med å vise tegn for farger, tall og begreper

- Alle** som har noe **rødt** på seg kan gå **to** skritt fram

Lotto og Memory

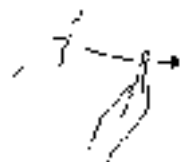

- ▶ Antall felt tilpasses den som skal spille og hvilke tegn den kan og skal lære
- ▶ Kan også klippes opp til «Memoryspill» (finne to like)

5 små aper hoppet i senga.
 En ramlet ned, og slo sitt lille hode.
 Mamma ringte til doktor'n,
 og doktor'n sa:
 I senga skal ingen aper være.
